

POST LANAP DIET INSTRUCTIONS

Diet Instructions

- The first three days following Laser Therapy, follow only a liquid- like diet to allow healing. Anything that could be put into a blender to drink is ideal. The purpose of this is to protect the clot that is acting as a “band-aid” between the gum and the teeth. Do not drink through a straw, as this creates a vacuum in your mouth that can disturb the “band-aid”. Take daily vitamins.
- Next four days after treatment, foods with a “mushy” consistency such as those listed below are recommended.*see below
- Starting seven to ten days after treatment, “mushy” - soft foods are allowable. Soft foods have the consistency of pasta, fish, chicken or steamed vegetables. You may then, gradually add back your regular diet choices.
- Please remember that even after ten days, healing is not complete. The first month following treatment you should continue to make smart food choices. Softer foods are better.
